‘One-Stop’ Structural Waterproofing Solutions

Since 1969, specialists **Cemplas Waterproofing and Concrete Repairs** have been working closely with many architects and engineering practices who have utilised our in-house expertise to provide ‘One-Stop’ Structural Waterproofing Solutions.

Cemplas are able to provide assistance with complicated design detailing, budget costings, through to tendering for the installation of the following:

Basement Waterproofing • Flat Roof Waterproofing • Podium Waterproofing • Car Park Waterproofing
Cavity Membrane Installation • Polyurethane Injection • Rising Damp Treatment
Project Analysis • Advice on Systems and Materials • Technical Site Advice

Approved by many of the leading manufacturers of remedial and repair waterproofing systems, Cemplas use their own fully trained operatives to provide reliable and cost-effective solutions to the Structural waterproofing of new repair and refurbishment contracts.

If you believe we can be of assistance with current or future projects you may be involved with, please do not hesitate to contact our Croydon office for immediate attention.
